grette style).

/TVABLOXDS of Compressed Sciuble Quinine are now prescribed by the leading Physiclans of Europe, in preference to any other form of the drug, in the treatment of fevers and all other cases in which Quinine is indicated. They dissolve and act on the system quicker than ordinary pills or powders; they are easier to swallow and can be dispensed by Chemists ut the same price that they charge for powders. Quinine Tabloids, (1, 1, 2, 3, & 5 grains) are supplied by all Chemists in oval bottles (vinai-

Absording to this the capital account amounts to \$51,725, consistler of 240 paid up shares,=36,000; the original instalment of 33 per share ou 3,760 stares. \$30,030, and the first enti-paid on 2,235 shares, at '\$7.-\$15,645 making altogather. \$51,725. Since the last two weeks payments have some in for 255 shares to the amount of \$1,795, to that the capital represents at present \$53,510. On 1.970 shares the call of \$7 per share has not been -paidand the amount standing out comes to \$6.890. Against these defaulters we have already taken

steps to make them pay up, but we are straid that a great many are not in a position to pay at all. From the statement in your hands you have sees how this sum of about \$53,000 has been expended; in fact it has not sufficed, and we have been obliged to overdraw our account with the Hongkong and Shanghai Bank considerably, as vell as to take up a big loan with Mesers. Renter, Brockelmann & Co. To cover these, loans and continue the business it would be need cessary to call in the remainder of the capital, but as several influential shareholders have expresed their wish rather to wind up the business than to put more capital into Borneo, we have convened this meeting in order to decide what is to be done. I now beg to propose "That the "Company bewound up vo untarily under the Pro-"visions of the Companies" Ordinances 1965 to "18:6, and that Frederick Alexander Alfred Bur-"ing Brockelmann and Justus Freidrich Reinrich "Heyn, composing the Firm of Beuter, "Brockelmann & Co., be the Liquidators of the "said Company, and their remuneration as such "Liquidators be the same as that allowed them "a General Managers of the Company."

Mr. F. RAPP seconded. Mr. Ho FUE-Before we proceed to vote on ther solution I have a few questions to not. One. is-was this meeting convened by the general minagers of their own motion or in response to a written requisition by some of the shareholders? The CHAIBMAN-The meeting was convened by the general managers and not on account of any written requisition, but shareholders have applied to the general managers verbally. Mr. Ho Fun said that under Ordinance I: of 1865 the General Managers could only call an extraordinary general meeting on a written application by three or more shareholders holding not less than one fifth of the shares.

The CHIRMAN said the application of the solednie of the Ordinance referred to was apocially exempted in the articles of association, and therefore it did not preclude the general managers from calling a special meeting; Mr. Ho Fux-I do not see what power, under

The sad event will be sincerely mourned by the whole foreign community in Japan, with whom the bright girl, so dearly loved by her illustrious father, was a universal favourite.

The Japan Gazette learns from the Tokyp ournal, Shogye Shimpo, that the Nippon Yusen Kaisha officials who recently vaited Europe and America, via India, have recommended the starting of a steamship service to Europe. It is not proposed to be a passenger service, but only for cargo. The proposal, the Gasette is informed, is at present under consideration by the leading. officials of the Company.

It is reported by the Japanese native press that the Cabinet has, since Viscount Awoki's promotion to Minister of the Foreign Deput ment, preparena draft treaty which it proposes a time. NOW ON SALE. IMPERIAL QUARTO. INGLISH AND CHINESE DICTIONARY.

WITH THE PUNTI AND MANDABIN PRONUNCIATION. An Anglo-Chinese Dictionary, published at the Daily Press Office, Hongkong.

For comprehensiveness and practical service this Work stands unrivolled. All the new words which the Chinese have of late years been compelled to coin to express the numerous obects in machinery, photography, telegraphy, and in science generally, which the rapid advance THE Saturday Afternoon Competitions will be DISCONTINUED until further of foreign relations has imposed upon them, are notice, but the ranges will be open for Practice here given in extense. Each and every word is as neval. The FAKL CUP will be also shot fully illustrated and explained; forming exercises for students of a most instructive nature. Both the Court and Punti pronunciations are given the accents being carefully marked on the best principle hitherto attained. The typography displays the success of an attempt to make the Chinese and English type correspond in the size of body, thereby effecting a vast economy of space, achieving a clearness not previously attained, and dispensing with those wast margins and vacant spaces which have heretolore charac-

terized Chinese publications. To illustrate the vest scope of the work the following facts are submitted for consideration :— Chalmers' Vocabulary contains about 16,000 Chinese characters, and Medhurst's English and Chinese Dictionary about 100,000, whilst this work contains more than 50,000 English words, and unwards of 600,000 Chinese characters. Again, despite all the grammars and other elementary works as yet published, the student of this difficult language absolutely requires examples to display the various appli-cations and equivalents of different words which have one general meaning. Of these examples this work contains more than five times as many as any other Dictionary hitheric pub-

For practical purposes the arrangement of the work is so complete, that a reference to its pages enables a person who understands English communicate effectively with natives who inderstand nothing but Chinese. In this respect the work will be found indispensable to all Europeans residing in China, and to the natives themselves it explains subjects fully with which. very few indeed of them are perfectly acquainted. To parties resident in England and interested in China it cannot but be invaluable occasion-

It comprises upwards of two thousand large quarto pages. 4. Yols. IMPERIAL QUARTO, Price. \$20. A Large REDUCTION in FRICE is made to Purchasers of SIX or more Copies. LONDON:
